EDUCATION

Arkansas State University   **Jonesboro, Arkansas**
Bachelor of Science in Mechanical Engineering   *Expected-fall 2028*

- **Joined IEEE membership and took IEEExtreme competitive programming competition held on Oct 25, 2024.**
- **Learned C++ which helped me write code in IEEExtreme competition.**

Web Development   **YouTube,**
Full-stack development   *2022-2023*

- **Learn Web Languages like HTML, CSS, JS, PHP, mySQL, NextJS, MERN stack, Git, GitHub**
- **Built my first app like Twitter, rebranded now as X as a real-world application. The number of users was 22.**
- **Built a lot of apps from simple TODO to complex apps like YouTube.**

Capital College and Research Center   **Nepal, Kathmandu**
Higher education (+2)   *fall 2022*

- **Built my first app in college as a project where I worked as a PHP, backend developer. The app was an online room finder application.**
- **Started my web development journey as a backend developer**

WORK EXPERIENCE

Freelancer
Online,   *Mid 2023-Mid 2024*

- **I worked as a freelancer worldwide and learned a lot of valuable skills and experiences which included dealing with clients, finishing projects on time, fulfilling clients' needs etc...**
- **I built a lot of applications like advanced task manager app with MERN, drag and drop form builder app, social media app, ecommerce app etc...**

LEADERSHIP & VOLUNTEERING EXPERIENCE

Arkansas State University plus Freelancing projects   **Jonesboro, Arkansas**
Oral Communication plus making Connections classes   *Fall-2024*

- **I honed my leadership skills by managing freelance projects, taking ownership of tasks, setting deadlines, ensuring clear communication with clients, and leading virtual teams in online projects, where I resolved conflicts, adapted to diverse working styles, and kept productivity to meet project goals.**
- **Additionally, I developed effective communication and leadership skills through the many presentations I delivered in *Oral Communication* and *Making Connections* classes, which helped me build confidence, improve active listening, and effectively manage group dynamics.**
- **I developed strong project management and organizational skills by balancing multiple freelancing assignments while volunteering, ensuring tasks were completed efficiently, and enhancing my communication and teamwork abilities through collaboration with clients and volunteer teams, adapting to diverse needs and solving challenges effectively.**
